### Why is Sildenafil So Inexpensive?

Sildenafil is the ONLY active ingredient in both Viagra® and Revatio® 20mg.

Revatio® is no longer patent protected.

Sildenafil 20mg is the FDA-approved generic version of Revatio® 20mg tablets.  
Generic drug makers are competing for business by lowering prices.

Ostroms has negotiated volume pricing on Sildenafil 20mg, generic of Revatio®.
